

CLAIMS

I claim:

1. A method of enhancing inhibition of plant growth comprising mixing a herbicide, an adjuvant and water to form a herbicidal mixture and applying the herbicidal mixture to the plant, wherein the adjuvant is isopropylammonium sulfate.
2. The method of Claim 1, wherein the plant is morningglory.
3. The method of Claim 1, wherein the plant is velvetleaf.
4. The method of Claim 1, wherein the plant is grain sorghum.
5. The method of Claim 1, wherein the plant is soybeans.
6. The method of Claim 1, wherein the herbicide is glyphosate.
